

# CREA NEWS

NEWSLETTER OF CREAMETAL AG / MAY 2024

## CREA-WHEEL in the new VIDEO

In this trailer video, we demonstrate how the CREA-WHEEL straightens crooked flat steel with maximum precision and efficiency. With some new functions and simplifications that our current model offers. Our straightening machine stands for quality and reliability that you will feel in every application.

- High-precision straightening of curved flat steel
- Efficient operation thanks to simple adjustment functions
- Optimised production processes

**GOODBYE DAMIEN**

**WELCOME ANDREAS**

## Departure and arrival

Unfortunately, we had to let our long-standing employee Damien Bannwart move on at the end of April. We would like to thank him very much for his great dedication to CREAMETAL AG. We are delighted to welcome Andreas Binggeli to the production department. He brings not only technical expertise but also fresh, innovative ideas that will increase our production efficiency and quality. The focus now is on familiarising Andreas quickly with the company.

## We were at the welding trade fair in Wels

Welding in Wels, Austria, took place in the last week of April. The trade fair showed how dynamic and innovative our industry is. We would like to thank everyone who visited our stand. It was a great week with exciting encounters, good discussions and lots of innovation. A big thank you goes to the CREAMETAL AG team, who provided visitors with excellent information about the machines and devices. We are proud of the positive feedback on our diverse products.

## Series production of discharge plates

We are working flat out to produce new discharge plates for the WHEEL. For all those who already own a CREA-WHEEL, these offer a good opportunity to arrange the straightened bars even more precisely. This upgrade makes work faster and also more convenient. Because the tedious running back and forth is a thing of the past! More efficiency and precision in production - thanks to a simple but effective addition to the CREA-WHEEL.

[I WANT TO KNOW MORE ABOUT IT](#)

I would like to thank you very much for the trust you have placed in us and for working with us as partners. I wish you a wonderful summer with successful business and innovative ideas.
